Professional Summary

Aspiring Backend Developer skilled in Node.js, Express.js, and MySQL, with two years of internship experience in frontend and backend development. Contributed to an ERP system, e-commerce applications, and an AI image generator, focusing on scalable server-side solutions. Certified in Product and Project Management from Upskill Coding Bootcamp, eager to innovate in a dynamic tech environment.

Education

Bachelor of Science in Computer Science (Undergraduate)

Enugu State University of Science and Technology, Enugu, Nigeria

Expected Graduation: 2026

Skills

- Technical: Node.js, Express.js, MySQL, JavaScript (ES6+), HTML5, CSS3, Git, REST APIs, Object-Oriented Programming (OOP)
- Tools/Frameworks: Postman, VS Code, MySQL
- Soft Skills: Problem-solving, teamwork, project management, time management
- Certifications: Product and Project Management (Upskill Coding Bootcamp, 2022)

Work Experience

Backend Development Intern

Genesys Tech Hub, Enugu, Nigeria

Jun 2024 - Present

- Developed backend systems using Node.js, Express.js, and MySQL, creating RESTful APIs for seamless data integration.
- Optimized database queries, improving application performance by 10%.
- Conducted API testing with Postman, ensuring robust and secure endpoints.

Frontend Development Intern

Peace Mass Transit, Nigeria

Jan 2022 - Dec 2023

Nicholas Chibueze Michael

46 Nwoye Crescent, New Haven Extension, Enugu, Nigeria

nicholaschibuezemichael@gmail.com | +234 810 364 1061

- Collaborated on an Enterprise Resource Planning (ERP) system, building responsive frontend interfaces with HTML, CSS, and JavaScript.
- Integrated frontend with backend APIs, enhancing user experience and data accuracy.
- Supported team in designing mobile-friendly UI, improving cross-device accessibility.

Projects

Enterprise Resource Planning (ERP) System | Available upon request | 2023

- Built backend modules using Node.js and Express.js, implementing APIs for inventory and user management.
- Designed MySQL database schemas for efficient data storage and retrieval.

E-Commerce Application | Available upon request | 2024

- Developed a scalable backend with Node.js, Express.js, and MySQL, supporting product catalog and order processing.
- Implemented secure REST APIs for user authentication and transaction management.

Image AI Generator | Available upon request | 2024

- Created a backend system integrating AI image generation APIs, using Node.js for server logic and MySQL for data storage.
- Optimized request handling for high-performance image generation.

Certifications

- Product and Project Management, Upskill Coding Bootcamp, Sep 2022 - Nov 2022

Hobbies & Interests

- Playing video games, cooking, football, watching movies
- Exploring open-source backend frameworks and contributing to GitHub repositories
